

We Believe in Making a Difference!

We, at OxyMat, believe that economic growth and the continuous demand for development and general well-being of our society is linked to the health of our environment.

We believe that we can make a difference and we take our responsibility seriously.

Through our Environmental Management System, we actively work to reduce the environmental impact of our business activities and to continuously improve and innovate on our products and business practices.

Our Commitment to a Healthier Environment

At OxyMat we are committed to:

-  Continually improve and optimize our Environmental Management System
-  Prevent pollution and reduce our impact on the environment
-  Comply with all regulations and legislations including, but not limited to, ISO 1400 to protect the environment

We also:

-  Place great importance in the health of our employees and their comfort at work
-  Use water-based paints in our production facilities to reduce environmental polluting emissions
-  Aim to cut energy consumption in our production facilities
-  Are aware of how big an influence hazardous waste has on the environment, hence we strive not to create excess hazardous waste
-  Implement an effective waste separation program to reduce the impact on the environment
-  Prefer the preventive approach; hence, equipment maintenance is part of our daily work

Through regular trainings, we encourage our employees to perform environmental awareness in everything they do.

We believe that our efforts to support the environment will create a solid foundation for success for future generations – and for our business.
