

## Our Commitment to Quality

We at Oxymat, manufacturer of PSA oxygen and nitrogen generators, shall strive to adhere and maintain Quality management system in all aspect and stages of our business activities and practices.

We employees are involved in the production of PSA oxygen and nitrogen generators corresponding to the highest quality standards.

In order to achieve that, our commitments are:

- ✓ Continually improve the effectiveness of quality management system
- ✓ Comply with all regulations and legislations
- ✓ Through regular trainings, continuously enhance knowledge and skills of our employees
- ✓ Effectively use processes, time and knowledge of our employees to design, manufacture and deliver quality products to our customers in order to meet their requirements and satisfaction
- ✓ Will use audits at suppliers to improve quality of material, controls and deliveries together

The Company's Quality objectives are communicated employees in the company.
